Re: Possible Water Service, Shepherd-DeCarlo Subdivision, 225 +/-  
Lots, Twin House and Oak Roads, East Nottingham Township, Chester  
County

Dear Mrs. Shepherd:

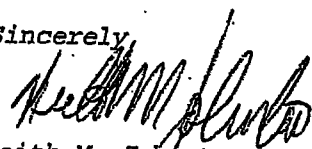

Chester Water Authority (CWA) has received your e-mail request for the Shepherd-DeCarlo Tracts. The Authority has the capacity and ability to provide water service to the proposed project. This proposal is conditional upon East Nottingham Township permitting Chester Water Authority (CWA) to serve the referenced property in the manner as designed by CWA. The proposal is also based upon you being able to obtain all necessary road occupancy permits, railroad crossing permits and any other governmental approvals which may be required for this project. Water service would be furnished by the construction of the distribution facilities required to serve this project after receipt of the fees required in accordance with Standard CWA Rules and Regulations.

Please send us a complete set of approved plans and a copy of the plans on disk (AutoCAD 2004) so that we can determine the facilities that are necessary to serve this project. Also, please complete and return the enclosed "Residential Service Line Checklist."

A main extension is required to serve this property. As shown on the enclosed copy of a project schedule, it will take approximately six (6) to eight (8) weeks for the Authority to respond to a request with a cost estimate and a general main extension plan from receipt of the above requested information.

Please feel free to call me if you have any questions or if you require any additional information.

Sincerely,

  
Keith M. Johnston,  
Distribution Engineer
